ROAD CONSTRUCTION SOLUTIONS

Nass Asphalt has grown to become one of the leading asphalt companies in Bahrain, with a reputation second to none for quality and customer satisfaction.

ROAD CONSTRUCTION SOLUTIONS

We work in a wide variety of environments which include major highway works, airfield projects and large industrial projects, as well as smaller scale works such as residential roads, car parks and tennis courts. We offer a comprehensive range of asphaltic materials including coloured, modified and recycled designs.

Within our civils operations, we also offer a full range of services including drainage, kerbing, block paving, placing of sub-bases, ducting and excavation works.

With our well trained and experienced workforce, and using the latest technologies available in the market, we aim to deliver a first class service to our clientele from design stage to completion.
